

DANUBE, YOUR LAUNDRY SOLUTION

Welcome to Danube !

At Danube we know how important efficiency is and we are very aware of our commitment to the environment. That is why we have developed a new state-of-the art product range with low consumption and high energy savings for their entire life span.

As a specialist in sanitary laundry, Danube is also committed to designing machines that meet the highest hygiene requirements and the most demanding standards.

Water

Saving water and using it properly are our goals, we do not want to waste it. We offer washing machines with optimized design and programming as well as a unique accessory, the AQUABAC: water recovery tanks

Energy

Energy optimization is fundamental in a laundry. Our machines have been designed for greater energy savings with this in mind.

Chemicals

We design our washing machines with features to ensure the most accurate use of chemicals.
