

DANUBE, YOUR LAUNDRY SOLUTION

Welcome to Danube !

At Danube we know how important efficiency is and we are very aware of our commitment to the environment. That is why we have developed a new state-of-the art product range with low consumption and high energy savings for their entire life span. As a specialist in sanitary laundry, Danube is also committed to designing machines that meet the highest hygiene requirements and the most demanding standards.

Water

Our machines incorporate water recovery technology and management to guarantee low consumption and optimum use of water in each wash cycle.

Energy

Optimizing energy is a key point in the management of a laundry to ensure greater savings and greater efficiency.

Chemicals

Adapting the quantity of detergents to suit the load and the laundry means extra savings, better care for your clothes and greater respect for the environment.

Time

By adjusting process times appropriately, the efficiency and profitability of the laundry is increased.

EFFICIENCY AND HYGIENE AS AN ABSOLUTE PRIORITY

G FACTOR

LOW CONSUMPTION

The industrial range of Danube front washers and sanitary barrier washers offer productivity and efficiency with significative savings of energy, water and detergents.

With one of the highest G factor on the market, all the models are equipped with the ET2 control with a wide touch screen, which enable many features as telemetry, connectivity, versatility and are easy to maintain.

In addition, they can be connected to AQUABAC XL or AQUABAC recovery tanks, depending on their capacity, to save from 40 to 70% of water (percentages depending on the type of program, linen and process).

FRONT WASHERS
FROM 11 TO 120 KG

BARRIER WASHERS
FROM 16 TO 100 KG

INDUSTRIAL DRYERS

This is one of the most extended range of tumble dryers with single drum, double drum and heat pump models.

Like the washers, all models have been designed to meet the greatest kind of requirements in terms of efficiency, productivity, connectivity and versatility. They meet most needs and are suitable for all sizes of business.
